

# **Model P3000BR**

# **Pressure Safety Relief Valves**

## **Application**

Designed for use on hot water space heating boilers, water supply heaters and storage tanks. These valves are designed for use on hot or cold water service only and are not to be used for steam.

### **Standards Compliance**

ASME listed and rated

#### **Materials**

Main valve body
Seat disc
Diaphragm

Cast Bronze
Silicone
EPDM

Springs Stainless Steel, 300 Series

Local codes shall govern installation requirements. Unless otherwise specified, the relief valve shall be installed in accordance with manufacturers' instructions and the latest edition of the Uniform Plumbing Code ®. CAUTION: Relief valves are designed to discharge water, should the proper conditions arise. In order to prevent water damage, relief valves must be plumbed outside the building or to an approved, safe drain as described by the Uniform Plumbing Code.

Sizes: 3/4", 1", 1 1/4", 1 1/2", 2"

Connections: Female NPT inlet and outlet

Pressure Setting Range 30-150 PSI Temperature Rating 212°F
